

## Business & Risk Management Transcript

00:00:03:06 - 00:00:17:09

Matthew Erb

I personally chose this program because it's a very versatile program. This class teaches you many skills with networking, making sure you're dressing correctly and overall just public speaking. And it really it really helps to be able to use that outside of school.

00:00:17:10 - 00:00:29:09

Aries Wallace

My main reason for taking this class was because I wanted to get involved in the business realm. I didn't know it was insurance, but I was really happy when I did find out because we do get chances to build our careers already when we are in high school.

00:00:29:11 - 00:00:52:07

So a lot of the designations we earn through this class are applied to specific realms within not only the insurance world, but they are applicable to business. Being able to use those skills and those designations really helps with going into the business world. And I'm hoping to either be able to start out in an insurance company or an office and being able to apply both those designations and those skills.

00:00:52:14 - 00:01:08:11

Aries Wallace

A typical day usually dress business casual. Some days we are business professional. You can grab a coffee if you want and just kind of get ready, set up your desk, and then we get ready to learn more about insurance. And then some days, of course, we'll be here early for field trips.

00:01:08:18 - 00:01:32:10

I would recommend this class. It's very versatile. You get to meet a lot of new people. You become more calm and comfortable in your own shell. Being able to speak and be who you are, you get to learn a lot of different things with not only the business world, but just as a person. You get to meet a lot, a lot of new people and develop skills that really help in the later stages in your life.
